### Judges' Review Session (Instruction) and Judges' Draw

The WTC spent some time preparing the PPTs for the judges' instruction. They were able to go into more detail by utilising separate PPTs for the D and E panels. This helped clarify the duties of the different panels. Due to the COVID-19 countermeasures, the Judges' instruction, the Judges' briefing and the Draw were all carried out online.

5 exercises for the D and for E evaluation were published in STS in advance. The OG judges had access to them and they could send their evaluation to the WTC members. During the virtual Judges instructions, the Ass presented the WTC evaluation with specific comments on questionable issues.

A summary of the PPTs will be published later to give information to all judges worldwide.

Thanks to Douglas Hills and his team for their professional work.

Due to the limited number of judges for the Olympic Games, it was not possible to draw neutral E judges for the Team Final.

# FÉDÉRATION INTERNATIONALE DE GYMNASTIQUE

Neutral R - judges were drawn for the Apparatus Final. The list with the judges' assignments for the competition phases were immediately submitted to Omega.

There were very strict COVID-19 rules and regulations in place in order to prevent the propagation of the virus. It was good to see that the judges understood the reasoning behind the testing and the rules and everyone followed the protocol exactly, both in the FoP and in the hotel.

- **Assessment of the Judging**

After the Qualifications, the WTC carried-out a PCVR of selected exercises according to the rules.

All exercises from Team Final, All-Around Final and Apparatus Finals were evaluated by the WTC (PCVR).

### **D- Panel**

The WTC were impressed with the standard of D panel judging. The judges were very consistent in their evaluation of elements and applied the FIG Code of Points very accurately and consistently to every exercise. They should be congratulated for their professional integrity and high level of assessment throughout all competitions.

### **E- and R- Panels**

The WTC felt that the judges were consistent in making deductions according to the COP and would like to commend them for their objectivity and quality of work.

There were very few interventions of the reference score in each phase of the competition.

### **Judges' placement**

The Judges' panels and Apparatus Supervisors sat in one line, outside the field of play and were separated by barriers.

## **9. VENUE AND APPARATUS**

- **Competition Format:**

**Format for Team Qualifications:** 4 gymnasts competed and the 3 highest scores counted

**Team Final working order:** 3 gymnasts competed – 3 scores counted

Touch Warm-up: each team did their touch warm-up separately one after the other

Competition: the gymnasts from the two teams competed alternately one after the other

- **Apparatus**

**Apparatus Commissioner**

The WTC would like to express their gratitude to Mr. Daniel Fesser and to the SES technical team for their cooperation and professional work in the FoP, the warm-up hall and the training halls.

Some small problems arose but they were all sorted out before the commencement of podium training.

**Apparatus supplier**

The apparatus supplied by "Senoh" and "Spieth" fully met the specifications. They were safely installed and well maintained throughout the competition.

Special attention was dedicated to the floor carpet every day.

In the warm-up hall an 80cm high podium was provided for floor, vault and balance beam.

- **IRCOS Video System/Omega**

On behalf of the WTC, I extend my heartfelt thanks to the IRCOS and the Omega teams for their friendly attitude and professional collaboration. It was a pleasure to work with them as usual.

- **Medical Staff**

The WTC would like to express their full gratitude to Dr Yasunobu Iwasaki and the entire medical team for having carried out their task very professionally under extreme COVID-19 countermeasures. They were well organised and friendly.

## 10. CONCLUSION AND THANKS

As everyone knows, the COVID-19 pandemic caused the Tokyo 2020 Olympic Games to be delayed by one year and this created significant problems both for the Japanese Organisers and the gymnasts who were hoping to compete. The Organising Committee had to contend with numerous extra rules and regulations in order to try and stop the virus spreading amongst all the competitors, officials and volunteers and still produce a high-level event. Gymnasts had to adapt their training to challenging situations as well as adhere to the rules and regulations laid down by their individual countries. These varied tremendously from nation to nation depending on the spread of the virus, the strain being transmitted and the development of vaccines.

Worldwide, everyone rose to the occasion and did everything possible to combat COVID-19. In the end, the WAG event turned out to be highly competitive with some exceptional choreography and new work. The strong spirit of co-operation between gymnasts, coaches, judges, officials and organisers helped to produce an event of which the WTC is extremely proud. It was good to see the medals shared between 9 different countries and a mixture of new stars and former champions on the medal podium.

Mr Endo Koichi, GAR Sport Manager and his Sport and Service Teams composed mainly of Mr Fujii Toshiaki, Ms Akena Akiko, Mr Machida Ryosuke, Mr Goto Yoichi, Mr Murata Ryusuke, Ms Arahata Hiromi, Mr Takemura Hideaki, Ms Murata Ayako, Mr Tachibana Yasunori, Ms Takahashi Miran, Mr Sogame Hideo, Mr Ito Sho, and Ms Kojima Ai must all be warmly thanked for their untiring dedication and their strong passion. Their cooperative work resulted in a highly successful staging of the Tokyo 2020 WAG competitions, which will remain unforgettable for all stakeholders.

It was also a real pleasure to work with Kurosu Maki, WAG TD/TC Liaison and Noda Mikiko, WAG ITOs/NTOs Liaison. I would like to extend a special "Thank you" for their amazing and outstanding job!

We are extremely grateful for the leadership given by FIG President Morinari Watanabe for these extraordinary Tokyo 2020 Olympic Games.

Like all major events, a great deal of the organizational work was being handled by the FIG staff, both before and during the competitions. Their attention to details, ability to handle any problems and amazing support were vital in the production of this high level, smoothly run event. The WTC would like to express their sincere thanks to the Secretary General Mr Nicolas Buompane and the Technical Coordinator Mr Steve Butcher for their assistance, confidence and valuable support, under extremely difficult circumstances. Ms Celine Cachemaille, the WAG Sports Manager deserves a special mention as she worked very closely with the WTC. Her ability to solve awkward problems in a highly professional calm and pleasant manner certainly eased the work of the WTC and was really appreciated.

# FÉDÉRATION INTERNATIONALE DE GYMNASTIQUE

We were lucky to be able to have the services of Ms. Naomi Valenzo during the online judges' meetings. Thanks also go to the FIG Authorities and members of the Jury of Appeal.

From a personal point of view, I finally would like to highlight the work of the WTC. They are a wonderful cohesive team, and it is a pleasure to work with them. I appreciate their attention to details and their aims to eliminate bias, produce accurate scoring and raise standards of judging throughout the world. This Cycle has been very difficult. As we were unable to meet in person, world time zones caused several communication issues, However, everyone made extra special efforts and sacrifices in order to produce memorable Tokyo 2020 Olympic Games – thank you all.

Respectfully submitted,

Donatella Sacchi, President FIG/WTC

Johanna Gratt, Secretary
