

Trampoline Gymnastics' World Championships

06th to 12th November 2023, Birmingham (GBR)

The Birmingham World Championships raised trampoline competition to an incredible new level, unexperienced until today, offering a sport presentation, a friendly but professional atmosphere that all the gymnasts and officials deeply enjoyed.

Dominic Elsom and his crew took us on an extraordinary journey.

The main focus before this competition was the Olympic Quota but the exceptional performances of the gymnasts in all disciplines and the showcasing gymnasts through the proposed sports presentation thrilled the fans and supporters of the gymnasts. The high quality of the equipment offered permitted the most ultimate performances.

The gymnasts, supported by the athletes' representative, Rosannagh MACLENNAN and the ambassador, Katherine Short (Driscoll), gave themselves thoroughly, in an outstanding competition, always with conviviality that well corresponds to the values of our sport.

We had an increased number of gymnasts and teams, not only in trampoline but also in Tumbling and DMT.

Some competition facts:

- No tie at medal places
- Two inquiries during the full competition (both rejected)
- In individual trampoline, only one man and two women did not take part in the second exercise of Q1.

Judge activity:

Number of judges per Categories:

- DMT: 12 judges (2 Cat 1, 2 Cat.2 and 8 Cat.3)
- Tumbling: 13 judges (2 Cat 1, 6 Cat.2 and 5 Cat.3)
- Trampoline: 36 judges (6 Cat.1, 23 Cat.2, and 7 Cat.3)

The competition went smoothly. We only had an issue with the HTMD device (two times we did not receive score from the machine), and we had to recalculate it with Swiss Timing back up device. This device, due to the difference of technology, does not give such an accurate score as the HTMD machine and will be improved. Swiss timing and TC are working together to make it even more reliable.

Incomplete exercises during trampoline competition:

We still had an important number of incomplete exercises, but not as much as the previous world championships, gymnast in this Olympic qualifying year performed more secure exercises and looked well prepared. This is especially true for Q2 exercises, where Olympic qualification took place.

MEN complete exercises

TC round table and presidential round table:

Very well attended, these two round tables permitted an open discussion. Various topics were discussed:

- 2025-2028 CoP planning
- 2023 World Junior Championships
- Media presentation of our sport
- Inflatable TUM tracks
- FIG Education: call for experts for Academies and Age Group programs
- Competition format: evaluation of changes in CoP 2022-2024
- TRA Difficulty review
- Execution judging criteria.
- New competition formats: outdoor events, mixed SYN, DMT high-jump, mixed teams...

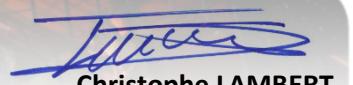

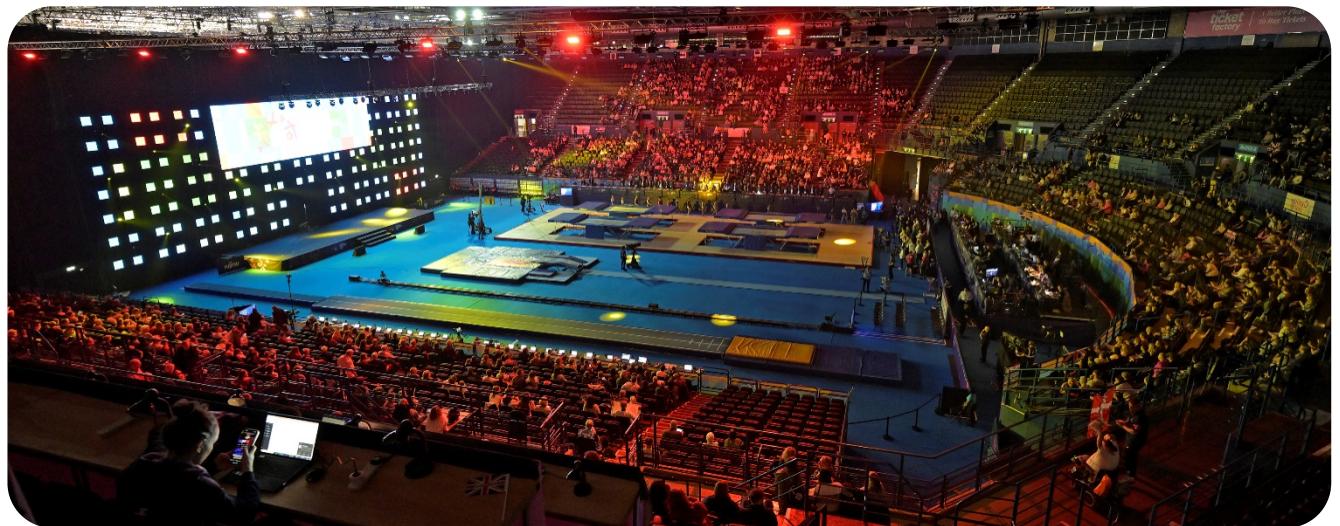

Gymnast meeting:

Also well attended by most of the countries present to the world championships often with more than one gymnast of the country, Rosie run this meeting reporting about new code of point and potential changes. She received very interesting comments from the gymnasts that TC consider finalizing CoP.

Acknowledgement:

Many thanks to our President Morinari WATANABE, for his presence and his rich exchanges with the members of the delegations and to Nicolas BUOMPANE, Secretary General, for his wise advice. Great thanks to the Sports Managers Rui VINAGRE and Alex COLA for the incalculable hours of work to the benefit of this competition. Many thanks to our Jury of Appeal Ali AL-HITMI and Alejandro PENICHE for their support and supervision throughout the competition. Finally special thanks to the Technical Committee who put all his enthusiasm and professionalism at the service of this event.

Once again, great thanks to organizing committee and volunteers.

Christophe LAMBERT,
President of the Trampoline Gymnastics Technical Committee
